## **Flash Selection**

- 1. Connect Red wire to power and Black wire to earth to power the lamp.
- 2. Tap Brown wire to power to cycle through the 11 flash patterns.
- 3. Hold Brown wire to power for 7 seconds to reset to the start (Constant Flash Pattern #1).

## Simultaneous or Alternating Flash (when using multiple units)

- 1. To enter grouping mode, connect all Red and Brown wires together, then connect to power. Each lamp will flash to identify which group they belong to.
- Single Flash = Group 1, Double Flash = Group 2.
- 2. While maintaining power to Red wires, remove the Brown wires from power.
- 3. To change groups, tap Brown wire to power. Lamps that are set to the same group will flash simultaneously. Lamps that are in opposite groups will alternate flash.
- 4. Once lamps are in desired group, disconnect Red wires from power then reconnect to power to exit grouping mode.
- 5. Connect all brown wires together to synchronise lamps. (Hold all brown wires to power for 7 seconds to reset all flash patterns to start)

NOTE: Maximum of 20 lamps can be Syncronized together.
