## Fitting Instructions

The screw covers on the left and right side of the lamp have been supplied not clipped-in for ease of installation. Once the lamps have been mounted using the screws provided, simply clip the covers in place. Important Note: If the screw covers ever need to be removed after installation, locate the cover slots as marked on the drawing to the left, carefully insert only the tip of a standard 5mm flat screw driver into a slot, and lever slightly with the screw driver to release the cover from the lamp.
