

Multivolt Load Module

- Detects Vehicle Ohm Ω Requirements
- Designed for late model vehicles that display light failure warning
- Corrects fast flashing indicators
- IP67 Shock/Dust & Waterproof

Function	Multivolt Load Module
Size	82mm x 64mm x 19mm
Voltage	Multivolt 9-32V
Resistance	@12.8V - 11.3 Ω Ohms @28V - 47 Ω Ohms
Watts	@12.8V - 14.5W @28V - 16.68W
Cable	18AWG - 100mm each side
Running Temp	Avg. 100°C
Housing	Steel

Part No.
LRM-2 - Twin Blister
LRMB - Single Bulk

Fitting Instructions

Join White wire of the module to the earth wire.
Join the Yellow/Green wire end of the module to the power wire.

Must be mounted on metal surfaces, the module can reach temperatures over 100° Celsius.

IP67
Waterproof

9-32V
Multivolt

5 Year
Warranty
