

Important Product and Mounting Information

The information provided suits the following standard Maxilamp part numbers.

It also applies to the equivalent special order or customer specific part numbers, not listed below;

MAXILAMP1XC

MAXILAMP1XCWE

MAXILAMP1XRE

MAXILAMP1XCE

MAXILAMP1RXRE

MAXILAMP1XCE

MAXILAMP1XRE

MAXILAMP3XR

MAXILAMP3XRB

MAXILAMP3XRW

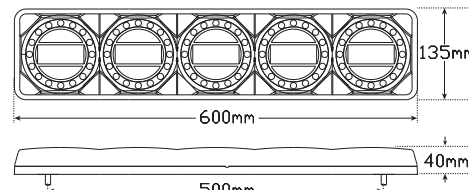

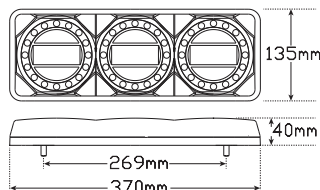

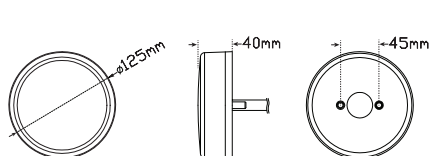

MAXILAMP3XRWB

MAXILAMP5XRR

MAXILAMP5XRRB

MAXILAMP5XRW

MAXILAMP5XRWB

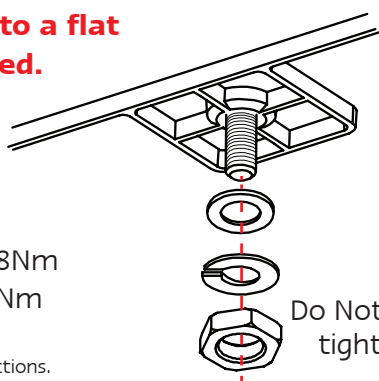

Horizontally bolt mount onto a flat surface using fixings supplied.

Bolt Torque Settings

Recommended: 61kgf-cm/5.978Nm

Maximum: 97kgf-cm/9.56Nm

Please refer to ADR 13/00 for mounting instructions.

Do Not Over tighten.

Wire Colour Code

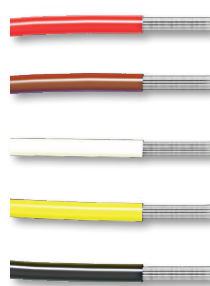

Red - Stop

Brown - Tail

White - Earth

Yellow - Indicator

Black - Reverse

Important Notice for Maxi Triple

Do NOT cover the Material Breather Hole with any sealant, or adhesive.

Doing so will void your 7-year warranty.

Rear of Maxilamp Triple.
Maxi Single and Maxi 5 do not have a breather hole

Warning: Do Not Cover Under Any Circumstances!

Note: If possible, we advise drilling a hole in the mounting surface to allow full airflow across the breather and remove the surface tension of any water trapped behind the lamp.

The **MaXilamp®** model features integrated Stop/Tail/Indicator and Reverse lamps, along with built-in Reflex Reflectors for enhanced road visibility. Its high-impact acrylic cover offers exceptional durability, resisting harsh chemicals found in cleaning products and providing enhanced UV protection to ensure long-lasting clarity without fading. The LEDs and internal components are fully encased in a resilient resin compound, making the lamp completely air and waterproof, as well as shockproof for superior reliability.

MaXilamp® is a registered trademark with I.P. Australia, and all models comply with the Australian Design Rules for automotive lighting. For more information, contact LED Autolamps at 1800 815 000 or visit our website at www.ledautolamps.com
