

LED Autolamps Box & Tandem Trailer Harness System

Trusted By Trailer Manufacturers for Over 16 Years

Innovated Harness System

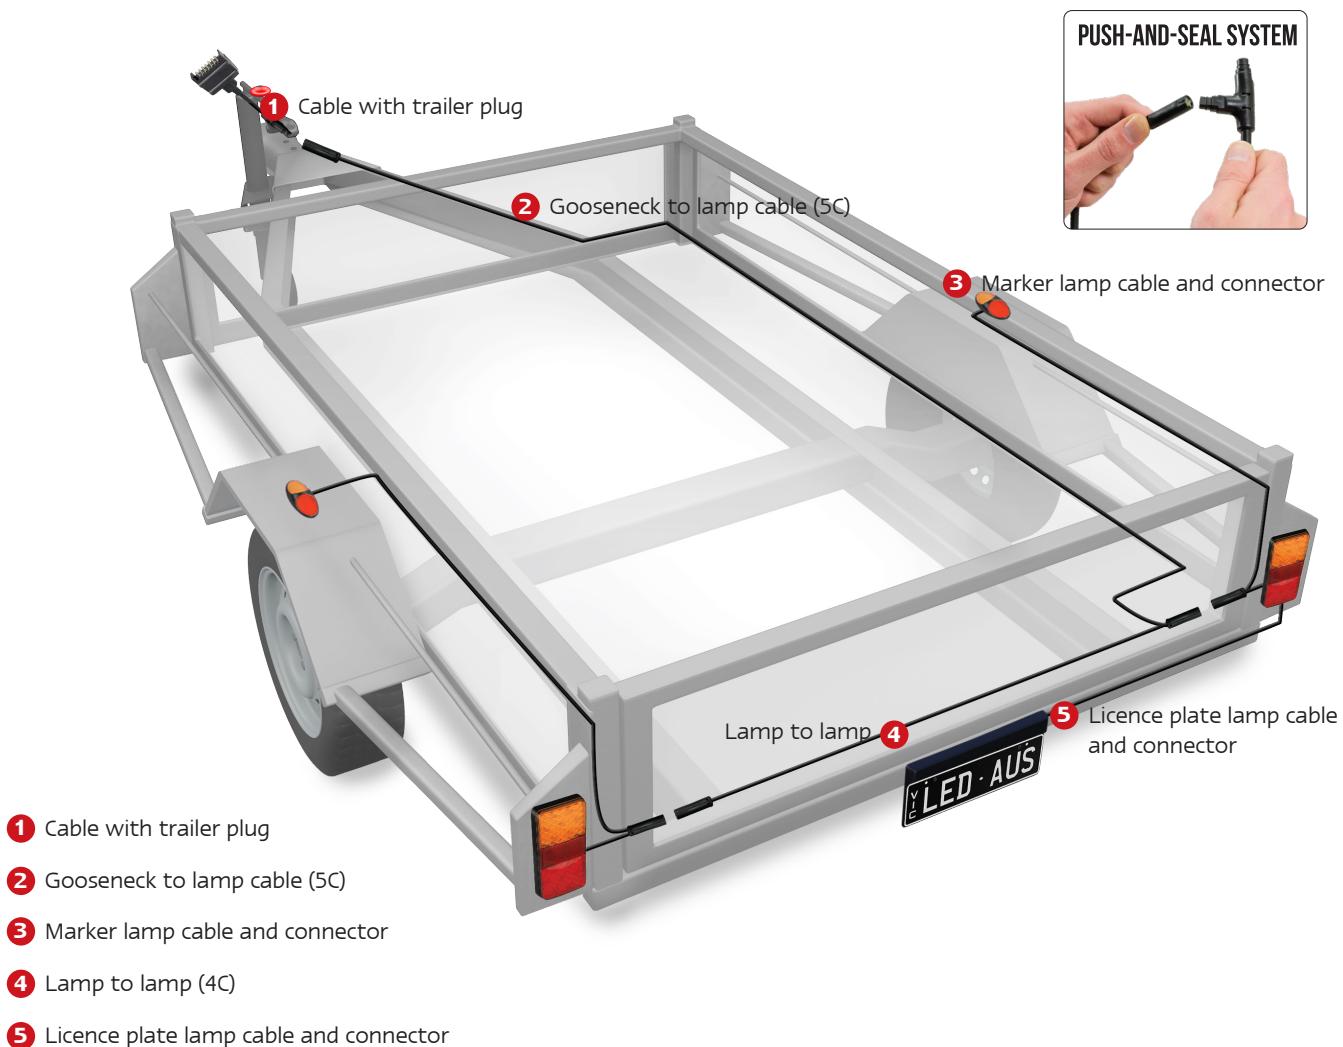

The key to this system is its ease of fitting. Wiring of a trailer will be completed faster, which is perfect for trailer manufacturers, DIY, or non-skilled fitters, saving time and money. No cutting, no soldering, no taping, and a professional finish.

Flexibility

The system consists of individual cables for box trailers to large tandem trailers with cable lengths up to 8 metres and widths up to 2.1 metres. Boat trailer cable lengths available up to 12 metres. All cables have 2 core accessory plugs that enable licence and marker lamps to be added if required.

Cable and Plugs

The Cables and plugs are specially designed with tinned copper terminals and unique sealing plug rings. They also have waterproof grease added for extra protection, ensuring water resistant, submersible connections.

- **No Tools Required**
- **No Cutting**
- **No Splicing**
- **No Soldering**
- **No Joiners**
- **No Tape**

SMALL TRAILER

Plug in Harness System

Gooseneck to Lamp – this cable is fitted from the front of the frame of the trailer to the rear right-hand lamp. The male plug to the lamp has an accessory wire for side markers.

Part Numbers

5C370C - 3.7 metre
5C430C - 4.3 metre

5C490C - 4.9 metre
5C550C - 5.5 metre

5C610C - 6.1 metre
5C670C - 6.7 metre

5C730C - 7.3 metre
5C800B - 8 metre

Lamp to Lamp – this cable is fitted from the right-hand lamp to the left-hand lamp. The male plug to the lamp has an accessory wire for side markers.

Part Numbers

4C110C - 1.1 metre
4C130C - 1.3 metre

4C150C - 1.5 metre
4C170C - 1.7 metre

4C190C - 1.9 metre
4C210C - 2.1 metre

Gooseneck to Vehicle with Trailer Plug – this 1-metre cable is fitted to the gooseneck. This cable ends with a trailer plug. You can also add the 5C1MB or the 5C1.5MB to extend the trailer plug length.

Part Numbers

Marker Lamp Cable and Plugs – For fitting marker lamps to the trailer harness system.
